Mayor Bozarth also mentioned that in August, KLC and KCO would be having a joint ABC training session in Louisville. More information should be on the Kentucky League of Cities website.

Item #4 – *Taylorsville Drainage Project* (Mike Draper, DLZ)

Mr. Draper explained the contract modification to the Taylorsville Drainage Project, changing the original proposal from the certification of the floodwall, to now being defined as a drainage

project for the Houston Ct. area. DLZ has been trying to get a conditional concurrence with the Army Corps of Engineers. The Corps requires a physical survey of the stream to determine whether they or the Division of Water has jurisdiction for the project. The contract modification is for an increase of \$11,630 to perform the field survey of the stream and to hopefully obtain a permit application. This new work would increase the preauthorized amount to \$44,793, which would be eligible under the reimbursement process described by FEMA. The total contract amount now is \$147,721. **Motion was made by Commissioner Proctor and seconded by Commissioner Redmon to approve the additional \$11,000 and to approve the new overall contract modification. Motion carried 5-0.**

Motion carried 5-0.**

Commissioner Ingram stated that she has spoken with the Department of Transportation and there would have to be an amendment to Phase 2 to include these projects before there could be

anything else done. Mrs. Williams asks what had been submitted because on their original plan they had some of these items that had been eliminated. Commissioner Ingram read a letter from the State saying: "The Main Street group has a list of things they would like to use the remaining funds for, including banners and brackets." Their response is "these were on the original list of items approved by the award but were listed as items to be donated by Eagle Signs." They also stated that "there is no fencing on final design plan, although there is some fencing referenced on an early list of items". Commissioner Ingram also asked about the clock. Their response to this was "it does not appear anywhere that there was a clock on the list." Therefore the clock would not be eligible for reimbursement. Commissioner Ingram feels that if the committee and the commission can get everything together, with the prices, submits the information and asks for an amendment to Phase 2, then they could possibly be reimbursed.
